PROFESSIONAL SUMMARY

Frontend Software Engineer with experience building scalable, responsive web applications using React.js, Next.js, and JavaScript (ES6+). Skilled in REST API integration, state management, and UI performance optimization. Strong focus on clean code, usability, and translating UI/UX designs into production-ready interfaces. Experienced in collaborating with cross-functional teams to deliver frictionless products, with a growing focus on backend engineering and system design.

SKILLS

Front End: HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, Tailwind CSS, Redux, Zustand

Back End: REST APIs, C# (.NET)

Databases & BaaS: MySQL, Firebase, Supabase

Tools: Git, GitHub, Figma, GSAP, Framer motion, Recharts

EDUCATION AND TRAINING

EDUCATION

Federal University of Technology, Akure (FUTA)

B.Tech. Physics Electronics | 2025

Achievements: Developed a UAV (drone) for acquiring atmospheric parameters, comparing results with established meteorological datasets.

TRAININGS & CERTIFICATIONS

Vephla Institute — Frontend Engineering | 2024

Spantrix Web Development Training — Web Design | 2021

Jobberman — Soft Skills Training | 2021

Live Your Dreams Africa (LYDA) Academy — Digital Marketing | 2020

Nejo University — Digital Product Training | 2020

WORK/PROFESSIONAL EXPERIENCE

Talent Flow (EdTech LMS Platform)

Frontend Developer | Ongoing Project

- Contributed to the development of a Learning Management System (Talent Flow) designed to support courses in Engineering, Product Design, Data Science and other tracks.
- Built and maintained core frontend features using React.js and Tailwind CSS, focusing on performance, responsiveness, and usability.
- Developed key application modules including authentication flows, landing page, and student dashboard interface.
- Collaborated with frontend developers, backend engineer, and product designers to translate UI/UX designs into functional interfaces.
- Improved dashboard usability by implementing structured UI components for student learning tracking, progress visualization and navigation.

BAT Computer Technologies Ltd

Web Developer Intern | Feb 2023 – May 2023

- Developed and maintained responsive website interfaces using a CMS, improving usability, accessibility, and overall user experience.
- Implemented responsive design principles to ensure consistent performance across mobile, tablet, and desktop devices.
- Collaborated with cross-functional teams to support application reliability, contributing to basic network monitoring and issue resolution.
- Assisted in configuring and maintaining network infrastructure, gaining hands-on experience with system uptime, connectivity, and performance optimization.
- Supported system maintenance tasks, including routine updates, backups, and basic security practices under senior engineers.

EXTRA CURRICULAR ACTIVITIES

Researching, writing, people development, experience cultures, traveling, public speaking, gaming.
